

# Hi-Tech Seals

## Your Agricultural Sealing Specialists

Hi-Tech Seals is a seal, gaskets, rubber & plastic component distributor and manufacturer with a focus on providing superior value to our customers. Our products are backed by a knowledgeable team of sealing professionals. We continually invest in new and innovative products, services, and equipment to ensure our customers can grow and prosper in an ever-changing economy.

The agricultural industry is facing pressure from a population increase, technical demands, and changes in safety and health regulations. Equipment must be resilient and productive while also preserving the soil. Our products work harder and longer in environments filled with mud, dirt, rain, and heat. They can withstand harsh conditions, reduce maintenance costs, and increase productivity.

### O-Rings

We stock a large variety of O-ring sizes in both imperial and metric. They are available in numerous materials including nitrile, hydrogenated nitrile, Viton™, Aflas® FEPM, PTFE, silicone, and more.

### Oil & Shaft Seals

We carry a wide range of oil and shaft seals including single lipped, double lipped, large bore, and agricultural profiles. They are available in a variety of materials including, nitrile, Viton™, and silicone.

### Gaskets

Our Rapid Gasket division can manufacture a variety of standard or custom gaskets from rubber, plastic, and composite sheet materials.

### Hub Seals / Cassette Seals

Hub seals, also known as cassette or axle seals, provide multiple radial and axial sealing lips incorporated into a fully unitized design. They are available in nitrile, hydrogenated nitrile, and fluorocarbon materials.

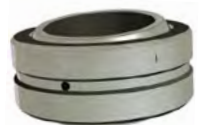

### Hydraulic Cylinder Seal Kits

Whether it is for maintenance or manufactured equipment, our seal kits are an excellent system to help keep your hydraulic cylinder seals organized.

### Cab & Vibration Mounts

It is becoming more essential to use a proper vibration and noise reduction components. Our range of cab and vibration mounts help improve the working conditions and extend the service life of your machinery.

### Spherical Ball Bearing

This is a rolling-element that permits rotation with low friction and allows for angular misalignment. Various models are available with sealing components on both sides.

### Window & Door Trim

Window and door trim provide excellent dust and rain-proof sealing capabilities. We offer an extensive range of trim profiles.

### Bulb Seals

Bulb seals are made of durable PVC plastic trim combined with EPDM sponge rubber bulb seal. They are available in a wide variety of bulb sizes and are designed to attach to a wide range of edge thicknesses.

### Extrusions

Our extrusion parts are available in a variety of shapes, including squares, cord shape, hollow sections, and custom profiles. They are manufactured from various materials, depending on the need of your application.

### Composite & Dry Slide Bearings

We offer bushings in a variety of materials, including composites and metals, to meet the requirements of your applications.

### Custom Moulded Rubber Parts

We can assist with the design and moulding of a variety of unique, non-standard parts to meet the demanding requirements of your specific application.

### Custom Moulded Urethane Parts

Our cast urethane division can formulate and create custom designed components to meet the needs of your application. Urethane parts experience less downtime and breakage, saving agricultural manufacturing companies time and money.
